

Area storage and high-rack warehouse technology for panel materials with a weight up to 500 kg

Product dimensions

Length: min. 300mm – max. 6,000mm
Width: min. 150mm – max. 2,100mm
Thickness: min. 3mm – max. 250mm
Speeds up to 180m/min.

Advantages of Kraft-warehouse technology

- Gentle material handling using vacuum or gripper technology
- Current inventory is only one mouse click away
- Dust development caused by forklift traffic is minimised
- Fast access to individual panels
- Minimisation of inventory through reorganisation
